Invitation to attend the Embedded Linux Conference Europe 2018
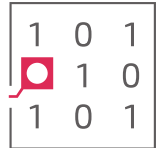

Opportunity for three to four motivated undergraduate students

MPSI Technologies is a Munich-based startup in the field of innovative software development tools for Embedded, and we are thrilled to be represented with a booth at this year's Embedded Linux Conference (ELC) Europe – set to take place October 22-24 in Edinburgh.

In this context, we are looking for three to four motivated undergraduate students in the area of embedded computing (Embedded Linux, FPGAs) / computer vision / robotics with a keen interest in innovative software development methods to assist us with visitor interactions at our booth.

We offer a free conference pass (value $200, evening events included), reimbursement of commutes, and of course first-hand information on our software development tool Whiznium and its applications.

In return, we would expect attendance to our Sunday briefing, and (limited) duty at two out of six half-day shifts at our booth (which will feature a cool hardware demonstrator by the way).

Tentative schedule

Sunday, October 21

16:30-18:00: Welcome and briefing at MPSI booth (EICC, ELC Europe venue)
… followed by informal MPSI get-together (location to be announced)

Monday, October 22 (conference day #1)

09:00-18:40: ELC Europe sessions
08:00-14:30: peak-time duty at MPSI booth, 1st shift
13:00-19:00: peak-time duty at MPSI booth, 2nd shift
19:00-open: ELC Europe all-attendee opening reception (National Museum of Scotland)

Tuesday, October 23 (conference day #2)

09:00-17:20: ELC Europe sessions
08:00-14:15: peak-time duty at MPSI booth, 1st shift
12:45-19:00: peak-time duty at MPSI booth, 2nd shift

Wednesday, October 24 (conference day #3)

09:00-17:45: ELC Europe sessions
08:00-14:15: peak-time duty at MPSI booth, 1st shift
12:45-19:00: peak-time duty at MPSI booth, 2nd shift
